Golf Tournament Draws 75 Men And Women Players

Handsome And Useful Prizes Offered To Winners And Others

Fifty-two men and 23 women qualified for the All-Glades Golf Tournament being held at the Country Club of the Everglades, with Hunk Taylor medalist for the men with a 145 for the 36 holes, a one-over-par score. Ed Butler took one more stroke than Hunk, for the 36 holes.

Edith Van Landingham and Louise McWhorter are tied for lady medalist position, and will play off this tie sometime during the tournament. Zelma Betzner and Bea Fleming tied for second place with 194's each.

Pro Joe Ziemann informs us that the pairings were made according to the USGP rules which work something like this: With a flight of 18, which is what is done in this case, Number one low man is paired with No. 8; No. 5 with No. 13; No. 2 with No. 11; and No. 3 with No. 14. The even numbers 4, 6, 8, and 2 are paired with 12, 14, 16 and 10 respectively.

The eight remaining in the first flight will be classed as the championship flight; those losing, flight No. one, after first match. So on down the line.

The first match must be played by Sunday night, the 16th.

Fuiler Warren Speaks Here To Large Crowd

Fuiler Warren was "honored" into Belle Glade Wednesday at 2 p. m., by a group of a dozen cars from various parts of Florida, and addressed a crowd almost equal in numbers to that which greeted McCarty on Monday.

Fuiler stated "Flood Control is the most important problem to Florida and I pledge my 100 per cent support to Flood Control plans for South Florida."

Warren stated that he had visited South Florida during the floods and had been studying the problem since that time.

Giving credit to the public school system of Florida for his own education, he strongly advocated it in all parts of the schools of Florida.

He made a first rate appeal to working people by a recitation of the adversities of being one of seven children born to a very poor family, and his efforts to help support that family.

Mr. Warren appealed for votes so that "we may have in Tallahassee good government, which we haven't had for the past three years."

He launched into an attack on administration forces on state payrolls using state automobiles and state gasoline oppressing him. He definitely left the impression that he is against that method of politics.

Information was given by him that he is approximately 20,000 votes ahead now and indicated that he would be still farther ahead when North Florida counties get around to counting the votes cast eleven days ago.

Install Caution Light

The city has established a new caution traffic light at the north end of the canal bridge leading into Lake Okechobee, as it is a bad short curve at that point, and a likely point of accident, says Mayor Lloyd Stuart. The light was placed there to be observed and obeyed.

Schools, Conventions And Camping Facilities In Clewiston Air Field

"The State expects to obtain title to the old Embury Field, Flying School at Clewiston," James L. Orr told Rotarians Friday, "and the Florida Conservation School, under the sponsorship of the Florida Park Service will open the first week in June, according to present plans."

"Park activities will be offered, including facilities for weekend or a month's vacation parties by organizations in this area, such as boy and girl scouts, Future Farmers, and so on."

"While the school activities are designed especially for veterans, they are open to non-veterans, both men and women. To begin with courses will be (1) Park Management; (2) Park Conservation; and (3) Tropical Planting Practices."

"In these courses the student will learn for the most part

the actual construction plans and conducting recreational activities. Planting and reforestation is done in tropical and sub-tropical areas."

"Living accommodations at the Clewiston are such that the veteran should be able to get along on his government allotment."

"The Australian Pine will be planted at the school site as well as other tropical hardwoods that have recently proven highly valuable for South Florida."

"Other subjects will be added and particularly those affecting the economy of South Florida."

"Any individual or organization in using the facilities should write the Florida Conservation School, Clewiston, Fla."

Final returns from the State election, shows that Thomas Bailey, head of the Tampa schools, will be the successor to Colin English as the Superintendent of Public Instruction, as he had a majority vote over the combined votes of Robert Dolley, of Miami, and Robert C. Marshall. Nomination is also to election in the November election.

Bailey is a man of wide educational ability and experience, and has made an outstanding record in his school work in a number of Florida towns, especially in Tampa.

Palm Beach county is also to have a new County Superintendent of Public Instruction in Harold Watkins, who for a number of years has held prominent positions in the school system of the county. Watkins is a man of wide educational ability and experience, and has made an outstanding record in his school work in a number of Florida towns, especially in Tampa.

Vote For The Kids On May 18th—Vote For The School Bond Issue

soon, and it may be that Dr. Watkins will be named superintendent protem until next January when he will assume his duties in his own right and name.

Dr. Watkins has a big chore set out before him, to follow in the footsteps of so able a man as his predecessor, Dr. English, who was a very capable scholar and school administrator, he should at least give us a very competent superintendent. He is just as much in favor of an expanded school program as Dr. Leonard, and will lend his efforts to secure the passage of the forthcoming \$3,600,000 bond issue on May 18th.

The Florida East Coast line shipped out a small consignment on its regular Monday night run to Jacksonville for delivery to the connecting roads taking the forwardings. The shipmen, the first they had been to Jacksonville for a year and loss of some would have left the pocket book pretty hard. When the Seaboard raised its shipping embargo, Monday, and the strike was forced off under Government court orders, there was a big relief, for the precious produce could be saved for disposition and sale.

Ray Whitlock, the incumbent in this race for Constable received 857 votes in the first election while Buford Prescott received 487. The other four candidates vote totalled 594. Prescott is undertaking to keep Whitlock from gaining 106 of the 594 votes, supposing

each will retain his original vote. If this campaign, and that Justice became hotly contested, there will be more assurance of a big vote in the run-off. Prescott is undertaking to keep Whitlock from gaining 106 of the 594 votes, supposing

Colorful Pageant "One World" Mayday Program

Children Depicting Nations of the World Make Big Hit With Spectators

What a beautiful pageant "One World" proved to be. Some five or six hundred people gathered in the great stage by the elementary school children from Belle Glade, Ocochee Camp and South Bay turned out to see the Athletic Field at 5 o'clock, last Friday night, and for two hours they saw a colorful event of a most attractive and beautiful nature, introducing the children of the nations in native costume and dancing along with their national colors.

The Belle Glade High Band opened the program with lively selection, and then the May Queen and her cortege came down the green sword to Colin English as the Superintendent of Public Instruction, as he had a majority vote over the combined votes of Robert Dolley, of Miami, and Robert C. Marshall. Nomination is also to election in the November election.

School Field Day Produces Some Very Hot Contests

"All work and no play" had a divorce on last Friday, for school youth of Pahokee, Belle Glade and South Bay, enjoyed a joint field day at Memorial Athletic park, as a May Day celebration event.

The old rain master Jupiter Pluvius had a notion to interfere with the afternoon's enjoyment, but after he had opened the spigot a trifle he decided to postpone his local engagement, and swung around to new territory.

The care free High and Junior High boys and girls, came prepared and clothed for the various numbers of the sports program, and for three hours there were from one to three events in progress over the extensive field. As each event was finished and scores pronounced, Henry O. Earwood, as the Mathis-Boe broadcasting booth, announced the winners, and called them to the stand to receive their ribbon awards.

Field Judges of the event were: Rider, Mosely, Alley and Grest. The physical culture, handled the mashing of the contestants.

Both the boys and the girls proved that they knew considerable outdoor pastime of a physical nature and each event was closely watched.

McCarty Favors Engineers Overall Flood Control And Water Conservation Plan

Teachers Complete Course In Red Cross First Aid Work

Talks To Largest Crowd To Hear Any Candidate In Belle Glade

The father of a daughter born on the morning of the first election, Dan McCarty, spoke to the largest crowd yet to hear any candidate in Belle Glade, Monday morning at eleven o'clock, and received a generous applause of hand clapping and horn blowing at the close of his speech. All this despite rainy soggy weather.

The Flood Control program of the U. S. Engineers, received the youthful candidate's approval. This statement was buttressed with the information that he had informed Senator Hollup of that stand.

McCarty stated that he had run a clean race in the primary, and would continue that plan in this final try. That he was not tied up with promises, nor controlled by any group and that his deepest interest was for the good of the state of Florida and its several millions of people.

He stated that as farmer, cattleman and citrus grower, he was interested in such things as would bring about the improvement of Agriculture those things and improvements which would aid in the bringing of the state to bring prosperity to the various areas.

He stressed his belief and faith in the all over water control proposed for the Everglades, and promised his full support, and if he were to be elected Governor. He believed that the plan would be the salvation of the rich farming section of central and south Florida.

He favored expanded and better four-year terms for the entire state, and was glad that Palm Beach County free holders soon would have opportunity of getting out to vote on a school bond issue, which he hoped to see endorsed.

Glades lodges will provide opposition to any plan to bring (Continued on Page 2)

The festive spring songs and dances of the various nations were the English May Pole dance, the Italian tarantella, the French farandole, the Scotch Highland fling, the bolero, the Mexican La Cucaracha, the Seminole Indian ceremonial, the Everglades Bean-picking dance, the South African native dances, Chinese procession, Hawaiian dances and others were presented.

As always in a program of the nature presented there are a few which take headline interest, and this was true with the Seminole Indian and the Glades Bean Pickers, possibly because they had local depictions.

All the training of the children, arranging for costumes, was done by the teachers, and to them goes a deserving word of compliment for their accomplishment of presenting such a beautiful colorful and educational pageant.

The awarding by the judges were based on these points: rhythm, formation, interpretation and costumes, and the awards were awarded as follows: divided as to Primary and Elementary:

Primary: Yankee Doodle, Belle Glade third grade, Mrs. Mary Granger teacher; second place, Spain, Belle Glade, second grade, Susie Murphy, teacher; Sweden, third grade Ocoela; fourth, Mountaineers, Ocoela; fifth, Holland, third grade, Belle Glade.

Elementary: first, France, Belle Glade sixth grade, Mrs. Dickinson, teacher; second, South Africa, fourth grade Belle Glade, Mrs. Emory, teacher; third, England, Belle Glade, fifth grade, Mrs. Gove, teacher; Mexico, Belle Glade, fifth grade, Mrs. Mosely, teacher. A special ribbon award was directed given to the South Bay school for its willing cooperation. Terry Cline, as the Jester, proved himself as a

most active lad in this position, and is worthy of commendation and Miss Acee also as Liberty.

LISTEN CATTLEMEN!

HERE'S THE DOPE

Grass is a Wonderful Crop, the nation's greatest asset, the cattlemen's hope, the cow's life-line, yielding a harvest that puts beef and milk on our tables and shoes on our feet. Yes, grass when gathered by cows, guarantees rich nutritious food for our children and the working man. Grass acreage in Florida is greater than any other one crop. The improved so managed to give the maxi pasture acreage alone is equal to that planted in corn (largest planted crop). The vast acreage of grass prevents soil erosion by wind and water, literally hold the country together, is devoid of any blooms, yet pleasant and restful to the eye and produces a revenue that holds this state and nation together.

Grass is gathered by the cow (a labor-saver) and sent into the channels of trade as food, clothing, and aids to science. Grass is dependent on moisture, sunlight, and fertile soils for maximum production. Weeds, bushes, and briars rob the grass of moisture, steal the fertility, and choke out the grass from the sunlight. Use of the mowing machine and weed cutter or chopper will encourage the growth of grass, increase the carrying capacity 20% to 30% and produce more pounds of beef on any cattle range.

Since grass is our greatest crop, it should be protected and so managed to give the maximum amount of grazing for cattle. Over-stocking pastures injures the grass and reduces the pounds of beef produced on a given area and results in damaged areas, poor under-breeding herds, low percentage "Calf Crop", and high winter death loss from starvation and disease.

The inauguration of good herd management practices, adjusting cattle numbers to the feed and grass supply, and correct pasture management pay dividends in pounds of beef and leaves grass in a healthy condition for the coming year. Putting those ideas into practice in 1946, Irie Simpson produced 183 pounds of beef per acre on 300 acres (during the summer grazing season). This grass was left in a fine healthy growing condition for the next year and was a life-saver for 400 cows and calves during the high water in the summer of 1947. This is an example of good herd and pasture management.

At the Range Cattle Field Day at Ona, the main theme was pasture grass and pounds of beef produced per acre on various experimental plots. Last week, on farm tours from Monticello to Pensacola, attention was focused on grass and gains of cattle from grasses and clover. All this shows the importance of grass and the "Calf Crop".

Beef cattle excel all other livestock in producing meat from products that are inedible to man such as hay, clover, straw, and "Grass". They convert these rough, raw materials into highly palatable nutritious beef. Now comes Dr. Kirk, of the Ona Range Station, producing good beef by feeding culled grapefruit and citrus pulp, creating a market for those by-products. Truly cows are serving a great purpose in

Florida. Keep cows happy, grow more grass, and get a big "Calf Crop".

NEW ON-THE-JOB BILL EXPLAINED
On-the-job training for World War II veterans became a more attractive proposition last week, when wage ceilings were raised by a new legislation in congress. The bill became law upon the signature of President Truman.

According to James A. Stafford, veterans service officer for the Everglades section, the new ceilings are \$210 for a veteran without dependents; \$270 for a veteran with one dependent; and \$290 for a veteran with more than one dependent. These figures include both compensation from the employer and subsistence allowance from the Government.

"Passage of this law does not mean that every veteran in On-The-Job training will be eligible to receive these amounts," Stafford explained. "Each On-The-Job training program is written individually. Thus, the maximum amount payable to the veteran is his 'Objective Wage' - - Or the wage which a fully trained man would receive in the particular job."

Contestants in front of the club house ready for the golf tournament.

according to the present program. "Most of the programs written in the past two years have been based on the ceiling wage of \$200 for a married man. These ceilings are still binding on current programs. An employer may ask for a revised program which would raise the objective wage, but the must apply for a revision." Stafford continued. "At this time, reports that a general re-survey of objective wages will be made are without confirmation."

DOROTHY LAYFIELD ATTENDS MIAMI FFA
Dorothy La Roe Layfield, Lake Harbor freshman at John B. Stetson University, DeLand, was among Stetson students attending the physical education section of the Florida Education Association meeting held in Miami April 22-24.

Miss Layfield is the daughter of Mr. and Mrs. H. R. Layfield, Lake Harbor.

CREW LEADERS SHOULD SECURE PERMITS FROM EMPLOYMENT OFFICE
Crew leaders of vegetable harvest hands are urged to contact Wilbur F. Kirkchup, Farm Placement Representative of the Florida State Employment Service, prior to transporting workers out of Florida. "In the past," Mr. Kirkchup stated, "Several crew leaders have been deceived by one state which does not permit labor recruitment. With proper clearance from the Florida State Employment Ser-

vice located in the Hendry Building, Crew leaders and their crews will be able to reach their destinations for harvest work without loss of time or other inconveniences." The local FSES office has on

hand a booklet entitled "A Guide to Seasonal Farm Jobs on the Atlantic Seaboard," which contains valuable information for crew leaders. The publication is free to crew leaders on demand.

JUSTICE OF THE PEACE
Belle Glade, Florida
District 8
Palm Beach County
TO MY GOOD FRIENDS
OF THE EVERGLADES

I wish to say that I am a candidate and in the run-off with my neighbor Mr. Geo. Williams for the office of Justice of the Peace for this district.

I place myself before you as a man that has tried to do every man a good deed when it is possible to do so.

I am not taking part in any of the other candidates affairs, Sheriff, Constable, Commissioner or any body else. These are your men to work with and I will work with which ever one you choose. My business is inside the Court and not on the outside. I expect to vote for the man I think best and this is all I ask of you, but use your own judgment.

I ask that every qualified voter go to your polls May 18th and cast your vote for the School Bond on that day. This my friends means that we have better education for our younger generation to whom we must look in preserving the peace and continued progress of one of the greatest nations on earth.

Again I THANK YOU AND GOOD LUCK.

OBSERVATIONS

Continued on page 7
not vote, then you are surely helping to kill the project, for your tentative vote will be included in the negative.
No bond issue has ever been presented in Palm Beach county that has so much worth or which will produce so much in return than this one. We want more, better and larger school facilities, and now is the time to get them, by casting a vote in favor of the issue. A MILLION for the Glades, with little outlay on our pocket books. Make voting on May 18 a MUST on your activity schedule of the day.

Well one of Glades boys is sure of holding down his political office for another term, and that is Capt. DeWitt Upthegrove, a former commercial fisherman on the big lake, which he knows like a book. Great hopes are entertained that our own John Kirk will be the favored son in the sheriff run-off.

Our Congressman, Dwight L. Rogers, goes back to the House in Washington, for his third term, without opposition. That is strong recommendation that he is doing a strong and acceptable piece of work for his thousands of constituents. When Everglade problems reach him, he is ready for use, and is right back of the ball.

All present at the May Day party at the Memorial Field last Friday night, were highly entertained by the school children in their various activities. These occasions are good for the youth and adult alike.

Mr. and Mrs. Ralph Kidder, were among those setting in line at the general election, and on conversation, Mr. Kidder stated that back in Jamestown, N. Y. 1924, he used his first voting machine to cast his ballot. Jamestown, N. Y., is the home of the voting machine, which has sort of a monopoly on that type of machinery, and the machine that he used first, was the original designed one. It was a very crude machine in comparison to the one now produced. Many of the states now have this mode of recording the vote, and has speeded up the securing of returns in hours, where formerly it took days. The punching of the keys and the final drawing of the lever are the most important acts of voting these days.

The Lions club certainly picked some mighty good men to head its activities the coming season. With "Shorty" Draa yielding the gavel, unexpected developments can be expected. Shorty has a perfect long record of club meeting attendance and has been an unusual worker. Treasurer Ed Lively's title could well be changed to "tax-writer", for he had a method that surely twists the delinquent monies out of Lions pockets, even if they do set up a roar. Those campaign cards and election speeches sure were honies.

The one old candidate who has served the state so long and well was Nathan Mayo, secretary of Agriculture, who had no opposition at the primaries, will now hold on in office for a bit longer. Mayo is a friend of the Glades, and as he has the prison farm under his management, there is not likely to be many changes in the plan of operation of the farm or in its official personnel.

WE THE PEOPLE of Florida seem to lean strongly to the younger candidates in the recent primary election, and there is going to be many a new young face in the public office of the state counties, yet even in districts.

While admitting good and faithful services of the old officers, yet some of them went to the public trough once too often. The present situation here is not unlike that in the northern states after the war between the states, when the returned veterans were given the preference when they ran for office. Grant, Garfield and Hayes were presidents of this type of selection. McKinley came along a few years later on a like capacity, all of the four men being native sons of Ohio.

Being a law officer is no easy task. Deputy Sheriffs and Constables are not needed where there are no crimes committed, nor are Justices of the Peace, if they have no prisoners to arraign and bind over to court. We know we do have considerable crime in District 8, not so much of the major nature as the minor, but to cope against either class, it takes watchful

eyes and knowing knowledge, and habits of the criminals, and their resorts. Successful law officers do not just pick up their operating knowhow in a day or week, but months to perfect. We in District 8 have a run-off election for both Peace Justice and Constable, which deserve careful thought before the vote is cast.
In the sheriff's run-off it is a pick from a Glades man and an east coast man. Our representative has made a good record during his first term, and was by far the most popular of the candidates at the election. Let's keep our pride of the Glades as he is a good officer.

Day by day the grasses and hyacinth extend their growth over the waters of Hillsboro canal, and at some points the canal banks packed with these obnoxious weeds or water plants. Some more DDT dusting is in order.

Old mother muck earth has about concluded its duty for the present season, and has not failed the croppers, who farmed the right way. Four weeks at the most will see all the spring crops ended. Then comes the repair work on equipment, the weeds will again soar up during the summer, only to be plowed under in the early fall for new crops. Then those vacation trips will be in order for those who can afford them.

General McArthur, the American ruler of Japan, states that the Japs are turning from their national religion to that of the Man of Galilee. The demand for Bibles in the Jap language is unprecedented and the supply is far under the demand.

"MY PLEA"
Let me bring a little mirth
To all who share my days
On earth;
Let something I have said or done
Remain when I have traveled on,
To prove the man I tried to be,
And, make men glad they walked with me;

A flower, smile, a word of cheer,
Make these my gifts from year to year
Let me carry where I go
Some little joy to all I know.

Let these into my life, be wrought
A little faith, a little thought,
A little mirth, a little grace,
To glorify the common place;
Let some little splendor shine
To mark this earthly course of mine.

Elk's Club House

Ted Pope, chairman of the Elks Entertainment committee, is announcing another dance at the hall on this Saturday night, with Tommy Keefe's band from West Palm Beach, providing the music. Dancing will start at 8 o'clock.

At the lodge session, Monday night, Past Exalted Ruler Harold Rosenberg, Exalted Ruler, Otto Blech and Johnnie Thomas, of the Pahokee lodge, were visitors and each gave short talks.

The lodge voted favorably upon a quartet of candidates and received several new membership petitions.

"Spider" Lindrose sprung a new menu on the boys, of which corn on the cob was the main item, but there were some boys who mourned, for they could not indulge in the delicacy because of the lack of teeth. It was quite a feed. Owing to the inability to secure a building in which to hold institutions ceremonies the new lodge at Melbourne, had to postpone these ceremonies until a later date.

New Building Permits

Building permits granted during the past week by building inspector Willis, are as follows: J. A. Allhands, dwelling in Hollywood, \$2500; Matt Colbert, dwelling; Eighth and Avenue D, S. W.; \$2500; Robert Reynolds, the Rutledge addition, \$3000 dwelling; and to Church of God and Faith Tabernacle, Eighth Avenue S. E., \$2,000.

Goodlet Named Motor Cop

The city now is the owner of a new motor cycle, which Officer Goodlet is riding on his inspection tour. The department has found the new machine a pretty hand piece of equipment to have around, for answering calls and in cruising.

These Won Without A Second Race!

RICHARD P. ROBBINS

Judge Robbins' 25 years of service didn't deter the voters and he is returned for another term.

HAROLD T. WILLIAMS

This youngster removed the County Solicitor from office by an overwhelming vote.

JOHN R. BEACHAM

The Senator's opponent carried 20 of the 42 precincts in the county. The Glades area gave the Senator a majority of 306 votes thereby saving his hide, since he only beat his opponent by 103 votes. We'll be seeing you Senator about Flood Control!

HAROLD WATKINS

This "Prof" had many years of teaching and administration rewarded by the voters of the county to run our schools for the next four years. He beat two opponents.
